

# We Give You Insight

Simplify what's  
complicated in  
your enterprise  
infrastructure.

## Centralize Control of Your Infrastructure

Visual One Intelligence™ is the quick and easy analytics solution that replaces complicated spreadsheets and expensive tools by unifying automated and customizable reporting, forecasting, monitoring, and cost optimization across your entire infrastructure tech stack.

\*Overall Peer Insights Rating of 4.7/5 in the IT Infrastructure Monitoring Tools market as of November 1, 2023.

- "Most flexible adaptable tool for IT reporting."
- "Great product, increased visibility, value add!"
- "Eliminates the need to keep Excel files."
- "Committed to customers' success by working with them in real-time to customize and enhance their tool."

## Expand Visibility

Over 80% of enterprises are moving to hybrid infrastructures. Vendor tools & spreadsheets limit observability in multi-platform environments, but we consolidate your cloud, compute & storage data on a single pane of glass.

## Optimize Spending

Cloud costs routinely go way over budget, and exponential data growth is creating higher storage costs each year. We help you scale with efficiency, get more out of your contracts & provisioning, and save money when migrating data.

## Reduce Risk

As infrastructure gets bigger and more decentralized, looking for risks feels like looking for needles in haystacks. Our automated risk discovery proactively shows you risks and anomalies before (not after) they cause a problem.

# One Screen Shows You Everything

We collect, sort, and interpret your data in all of the following environments to prevent risks, find inefficiencies, and recommend cost-saving improvements.

“Now we can spend our time on decision-making, not data collection.”

IT Manager,  
Large Retailer

**Visual Storage**  
Intelligence

- Multi-vendor on-prem device, host, backup, business unit, etc. observability & health alerts (with ServiceNow integration).
- Find wasted resources, optimize SLAs.
- Capacity planning and custom forecasting.
- Chargeback / showback reporting.
- Automated health & efficiency reports via email.

**Visual Cloud**  
Intelligence

- Multi-vendor cloud observability & health alerts (with ServiceNow integration).
- Migration planning; compare provider costs.
- Cloud cost heat maps & utilization forecasting.
- Resource trends comparing spending vs. budget.
- Budget & resource capacity planning.
- Automated health & efficiency reports via email.

**Visual VM**  
Intelligence

- Multi-vendor compute / HCI observability & health alerts (with ServiceNow integration).
- Workload cost comparisons across platforms.
- Workload right-sizing recommendations.
- Unique scoring to evaluate capacity & efficiency.
- Automated health & efficiency reports via email.

**Visual SAN**  
Intelligence

- SAN switch observability & health alerts (with ServiceNow integration).
- Switch / host / storage topology.
- Root-cause analysis.
- EOL / EOM calendar; support after device EOM.
- Automatic host connection listings.

**Visual File**  
Intelligence

- File-level observability.
- Sort unstructured data by type, owner, and time since last accessed.
- Enable file data re-tiering and archiving in accordance with regulatory requirements.
- Process one billion records per hour.

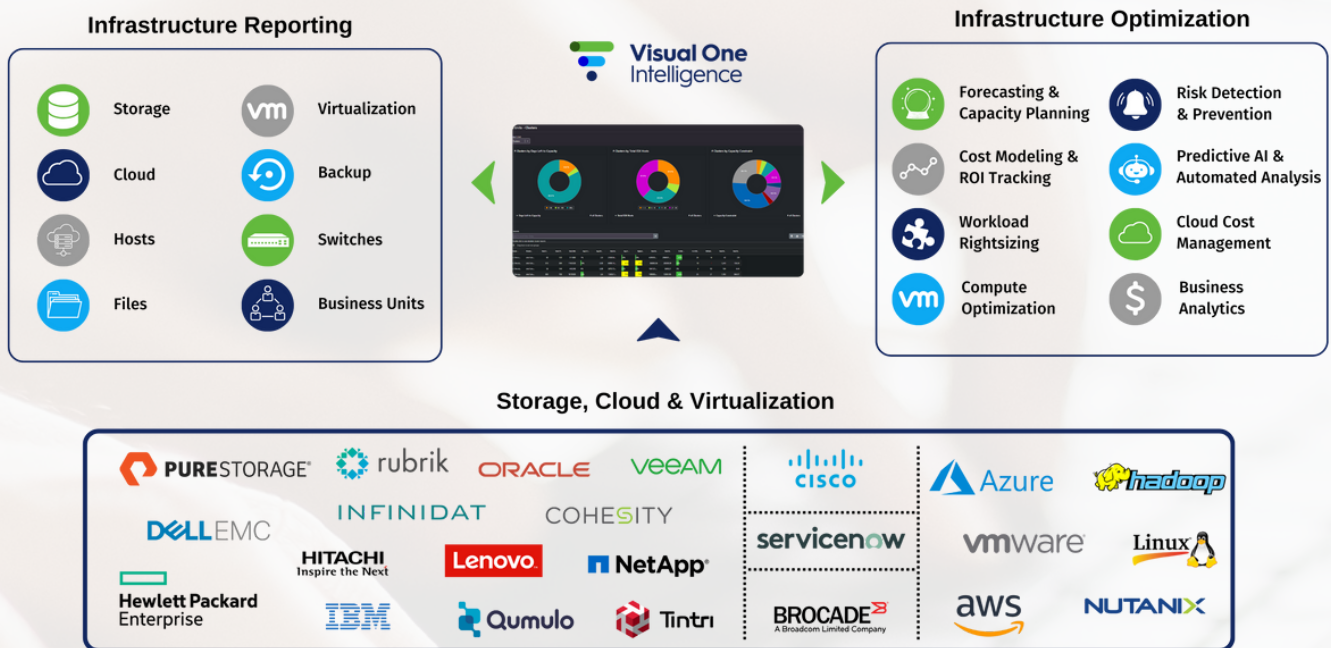

# How It Works

We collect your data, transfer it to a secure private cloud, and transform it into relevant insights via 24/7 dashboard & weekly email reports.

"This is a low-cost solution that requires no education or training and gives us the visibility we need without having to install or learn additional products."

**Director of Storage Management,**  
Fortune 1000 Company

# Getting started is quick, easy, secure...and free.

- Setting up Visual One Intelligence™ takes less time than going to the movies (even if you skip the trailers, like us).
- Data collected by Visual One Intelligence™ is configuration data only and does not include sensitive or proprietary information.
- Data collection is agentless - no installations required.

**Start Today**

"The spirit in which Visual One Intelligence™ approaches the customer relationship resonates so much with me. Their support has always been way above expectations."
